SUMMARY

Senior React Native and frontend engineer with 4 years of experience shipping production mobile applications to the App Store and Google Play. Proven track record of owning features end to end, from architecture through deployment, with a focus on performance and user experience.

TECHNICAL SKILLS

Languages: JavaScript, C#, SQL, HTML, CSS

Mobile: React Native, .NET MAUI

Frontend: React, Redux, Angular, Tailwind CSS, SCSS

Backend: Node.js, Express, .NET, REST API Development, SQL Server

EXPERIENCE

Senior Mobile & Frontend Engineer (formerly Mobile & Frontend Engineer)

ViviScape | October 2022 – Present | Remote

- Led development and deployment of 5 production mobile applications using React Native and .NET MAUI, with end-to-end ownership of 4 from UI/UX design through deployment
- Led redevelopment of a legacy mobile application, addressing performance issues that reduced user-perceived crash rates from approximately 50% to under 2%
- Restructured a mobile application's architecture to support extensive offline capabilities, enabling functionality with low or no connectivity
- Implemented real-time communication features using SignalR, enabling live messaging, instant notifications, and integration with external systems, including Slack
- Managed deployment and maintenance of React Native and .NET MAUI mobile applications across the Apple App Store and Google Play Store
- Integrated applications with REST APIs implementing authentication flows, error handling, and reliable client-server communication patterns
- Led full development of 2 web applications and contributed to 7+ additional projects across React and Angular

EDUCATION

Grace Hopper Program at Fullstack Academy— Software Engineering Immersive

A.S. Computer Information Systems— Quinsigamond Community College

B.S. Wildlife & Fisheries Conservation— University of Massachusetts Amherst
